Contents

Abdul-Baki AA → Matthews BF
Ai Y, Singh A, Coleman CE, Ioerger TR, Kheyr-Pour A, Kao T-H: Self-incompatibility in *Petunia inflata*: isolation and characterization of cDNAs encoding three S-allele-associated proteins 130

Bastouill-Descollonges Y, Manachère G: Control of basidiospore production by a nuclear gene in the fungus *Coprinus congregatus* 103
Bennett MD → Laurie DA
Bergervoet JHW → Custers JBM
Bintrim SB → Kheyr-Pour A
Bommineni VR, Greyson RI: Regulation of flower development in cultured ears of maize (*Zea mays* L.) 109
Bracale M, Galli MG, Falavigna A, Soave C: Sexual differentiation in *Asparagus officinalis* L. II. Total and newly synthesized proteins in male and female flowers 23

Calder DM → Slater AT
Calzoni GL, Speranza A, Caramiello R, Piccone G, Zannini P: Wall ultrastructure and biochemical features of the *Juglans regia* L. and *Juglans nigra* L. male gametophyte 139
Caramiello R → Calzoni GL
Carratú G, Giannattasio M: Lectin activity in pollen from plants representative of thirty orders of spermatophyta 35
Chaubal R, Reger BJ: Relatively high calcium is localized in synergid cells of wheat ovaries 98
Cismondi IA → Noher de Halac I
Ciupercescu D → Ye D
Coleman CE → Ai Y
Custers JBM, Bergervoet JHW: In vitro culture of embryos of *Cucumis* spp.: heart-stage embryos have a higher ability of direct plant formation than advanced-stage embryos 152

Douglas GC → Leduc N
Dulberger R: Release of proteins from the pollen wall of *Linum grandiflorum* 18

Ende H van den → Kalshoven HW

Falavigna A → Bracale M
Frankis RC Jr, Grayson GK: Heat-shock response in germinating pine pollen 195
Frova C: Analysis of gene expression in microspores, pollen, and silks of *Zea mays* L. 200

Galli MG → Bracale M
Gauger WL: The genetics of two homothallic species of the Mucoraceae 31
Giannattasio M → Carratú G
Grayson GK → Frankis RC Jr
Greyson RI → Bommineni VR
Grun P → Xu B
Gunning BES → Webb MC

Hammond SA → Kheyr-Pour A
Harte C → Noher de Halac I
Heslop-Harrison J, Heslop-Harrison Y: Dynamic aspects of apical zonation in the angiosperm pollen tube 187
Heslop-Harrison Y → Heslop-Harrison J
Hodgkin T: In vitro pollen selection in *Brassica napus* L. for resistance to phytotoxic compounds from *Alternaria brassicicola* (Schw.) Wilts 116

Installé P → Ye D
Ioerger TR → Ai Y
Ioerger TR → Kheyr-Pour A

Jackson JF, Linskens HF: Bioassays for incompatibility 207
Jacobs M → Ye D
Jaenicke L → Waffenschmidt S
Jain A, Shivanna KR: Storage of pollen grains of *Crotalaria retusa* in oils 225

Kalshoven HW, Musgrave A, Ende H van den: Mating receptor complex in the flagellar membrane of *Chlamydomonas eugametos* gametes 77
Kao T-H → Ai Y
Kao T-H → Kheyr-Pour A
Kao T-H → Xu B
Keijzer CJ → Willemse MTM
Kheyr-Pour A, Bintrim SB, Ioerger TR, Remy R, Hammond SA, Kao T-H: Sequence diversity of pistil S-proteins associated with gametophytic self-incompatibility in *Nicotiana alata* 88
Kheyr-Pour A → Ai Y
Kheyr-Pour A → Xu B
Knittler M → Waffenschmidt S
Kranz E, Lörz H: Micromanipulation and in vitro fertilization with single pollen grains of maize 160
Kwee H-S → Van Went JL

Laurie DA, Bennett MD: Early post-pollination events in hexaploid wheat × maize crosses 70
Leduc N, Monnier M, Douglas GC: Germination of trinucleated pollen: formulation of a new medium for *Capsella bursa-pastoris* 228
Linskens HF → Jackson JF
Longo CP → Marziani Longo GP
Lörz H → Kranz E

Manachère G → Bastouill-Descollonges Y
Marziani Longo GP, Rossi G, Scaglione G, Longo CP, Soave C: Sexual differentiation in *Asparagus officinalis* L. III. Hormonal content and peroxidase isoenzymes in female and male plants 236
Matthews BF, Abdul-Baki AA, Saunders JA: Expression of a foreign gene in electroporated pollen grains of tobacco 147
Monnier M → Leduc N
Musgrave A → Kalshoven HW

Negrutiu I → Ye D
Noher de Halac I, Cismondi IA, Harte C: Pollen ontogenesis in *Oenothera*: a comparison of genotypically normal anthers with the male-sterile mutant *sterilis* 41

Piccone G → Calzoni GL
Polito VS → Tiwari SC
Polowick PL, Sawhney VK: Microsporogenesis in a normal line and in the *ogu* cytoplasmic male-sterile line of *Brassica napus*. I. The influence of high temperatures 263

Raghavan V: Spatial distribution of mRNA during pre-fertilization ovule development in *Capsella bursa-pastoris* 170
Reger BJ → Chaubal R
Remy R → Kheyr-Pour A
Rossi G → Marziani Longo GP
Rouse JL → Williams EG

Salesses G → Ye D
Saunders JA → Matthews BF
Sawhney VK → Polowick PL
Scaglione G → Marziani Longo GP
Shivanna KR → Jain A
Singh A → Ai Y
Slater AT, Calder DM: Fine structure of the wet, detached cell stigma of the orchid *Dendrobium speciosum* Sm. 61
Soave C → Bracale M
Soave C → Marziani Longo GP
Speranza A → Calzoni GL

Tiwari SC, Polito VS: An analysis of the role of actin during pollen activation leading to germination in pear (*Pyrus communis* L.): treatment with cytochalasin D 121

Van Went JL, Kwee H-S: Enzymatic isolation of living embryo sacs of *Petunia* 257
Veuskens J → Ye D

Waffenschmidt S, Knittler M, Jaenicke L: Characterization of a sperm lysin of *Volvox carteri* 1
Webb MC, Gunning BES: Embryo sac de-

velopment in *Arabidopsis thaliana*. I. Megasporogenesis, including the microtubular cytoskeleton 244
Willemse MTM, Keijzer CJ: Tracing pollen nuclei in the ovary and ovule of *Gasteria verrucosa* (Mill.) H. Duval after pollination with DAPI-stained pollen 219
Williams EG, Rouse JL: Relationships of pollen size, pistil length and pollen tube growth rates in *Rhododendron* and their influence on hybridization 7
Wu Y → Ye D

Xu B, Grun P, Kheyr-Pour A, Kao T-H: Identification of pistil-specific proteins associated with three self-incompatibility alleles in *Solanum chacoense* 54

Yang HY → Zhou C
Ye D, Installé P, Ciupercescu D, Veuskens J, Wu Y, Salesses G, Jacobs M, Negrutiu I: Sex determination in the dioecious *Melandrium*. I. First lessons from androgenic haploids 179

Zannini P → Calzoni GL
Zee SY → Zhou C
Zhou C, Zee SY, Yang HY: Microtubule organization of in situ and isolated generative cells in *Zephyranthes grandiflora* Lindl 213
